## Fifteenth Annual Report of ZEP-RE

In accordance with Article 12 (f) of the Agreement establishing ZEP-RE (PTA Reinsurance Company) I have the honour, on behalf of the Board of Directors, to submit the 15th Annual Report and Audited Accounts of ZEP-RE (PTA Reinsurance Company) for the twelve (12) months ending 31st December 2008.

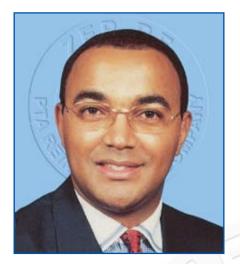

Please accept, your Excellencies, the assurances of my highest consideration.

**Peter Kenneth, MP** Chairman of the Board

8 ZEP-RE (PTA REINSURANCE COMPANY) FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

### **Report of the Chairman of the Board of Directors**

#### Foreword

On behalf of the Board of Directors, I am delighted to present to you the Annual Report and Financial Statements of ZEP–RE for the year ended 31 December 2008.

#### **Business Environment**

2008 was a most challenging year for the business of the Company.

The year commenced with political turmoil in the company's largest market, Kenya. The post election impasse that gripped the country greatly affected Kenya's economic performance in the first quarter of the year resulting in our projections for the quarter falling short of expectations. The Company, however,

made business recovery in the Kenyan market as the year progressed. In addition, the company's market diversification programme that saw focus shift to new markets in the western and southern regions of Africa, managed to cushion ZEP-RE's overall business performance during the first three quarters of 2008.

At the close of 2008, however, the global economy suffered massive financial meltdown due to the collapse of the US sub-prime mortgage market, the decline of the housing boom in other industrialized economies and a global credit crunch. The immediate effect of this crisis was manifest in the weakening of regional currencies and a decline in base interest rates for some of the major convertible currencies. Although the global financial crisis mildly impacted on the overall growth of economies in sub-Sahara Africa, mainly due to Africa's generally weak integration with the rest of the global economy, the growth prospect for sub Saharan Africa going into the future is expected to take a beating with forecasts being downgraded from 10% to 3% given that there will be a reduction in foreign direct investments, African diaspora remittances, diminished foreign aid and increased demands for debt repayment.

In spite of the foregoing, the Company continued with its growth objectives in 2008 and its business diversification programme is now well entrenched with the regional offices in Lusaka and Douala registering increased business in their respective territories.

#### Managing Director's contract

During the year, the General Assembly renewed the Managing Director's contract for a further period of five years.

#### Highlights of performance

#### I. Premium

Premium income grew by 21.3% from US\$ 37.92 million in 2007 to US\$ 45.99 million in 2008.

#### II. Underwriting results

Despite incurring some midsized claims namely; the Alaf claim in Tanzania, the Ashton claim in Kenya and the Miranda claim in Mozambique the Company registered an underwriting profit of US\$ 4.19 million in 2008 compared to US\$ 0.97 million in 2007. Claims incurred in 2008 were US\$ 18.48 million compared to US\$ 16.93 million in 2007.

#### III. Outstanding Claims provision

An actuarial valuation resulted in the Company's outstanding claims increasing to US\$ 14.49 million in 2008 from US\$ 12.53 million in 2007.

### **Report of the Chairman of the Board of Directors**

#### **IV. Investments**

Investments increased to US\$ 53.88 million in 2008 from US\$ 41.36 million in 2007 while investment and rental income increased to US\$ 3.95 million from US\$ 3.23 million the previous year. The less than expected increase is attributed to a reduction in interest rates during the first half of the year on some of the major convertible currencies.

The Company however experienced a fair value loss of US\$0.88 million on its equity investments following a fall in stock prices at the Nairobi Stock Exchange during the last half of 2008.

#### V. Profitability

The Company achieved a profit of US\$ 1.91 million in 2008 compared to US\$ 5.26 million in 2007. The reduction in profits is mainly attributable to translation losses incurred by the Company amounting to US\$ 6.48 million. The exchange losses were brought about mainly by the strengthening of the United States dollar (which is the reporting currency of the Company) against other major currencies and local trading currencies of the region during the last quarter of 2008.

#### Membership and Share Capital Restructuring

Members, at the 17th Annual General Assembly, approved the restructuring of the Company's membership and capital set up. The restructuring process approved by the General Assembly introduced a number of changes including:-

- Broadening the membership criteria of the Company to allow admission of international development agencies.
- Splitting the ZEP-RE share (then valued at US\$ 1,364) into 1, 364 shares of par value US\$1 each,
- Increasing the authorised share capital of the Company from US\$50,000,000 to US\$100,000,000 divided into 100,000,000 shares of par value US\$1,
- Providing for a minimum shareholding of 68,200 shares and a maximum shareholding of 15% of the total paid up capital,
- Revising the composition of the Board by providing for at least 2 minority positions on the Board, and
- Adoption of a new share trading value of US\$2.11 for every share.

Two members namely Mayfair Insurance Company and SORAS were allocated additional 183 and 266 shares respectively.

#### **Capitalisation of Dividends and Reserves**

The 17th Annual General Assembly approved the capitalisation of dividends amounting to US\$ 750,000 and reserves amounting to US\$ 9,852,399 respectively. Responding to the call of the 16th AGM, a number of shareholders made payments towards outstanding share capital balances and the uncalled portion of shares allocated.

The aforementioned capitalisation together with members' remittances saw the paid up share capital of the Company increase to US\$ 29.99 million in 2008 from US\$ 12.8 million in 2007.

#### **Corporate Governance Statement**

ZEP–RE is committed to the highest standards of Corporate Governance. The Company strives to regularly review its processes, rules, regulations and structures with a view to ensuring the best performance of the Board, Board committees and overall management of its business in line with recommended international standards.

9

## **Report of the Chairman of the Board of Directors**

Key aspects of our approach to Corporate Governance are as follows: -

#### The Board of Directors

ZEP-RE has a unitary Board comprising of 10 non executive Directors. The roles of the Chairman and Managing Director are clearly defined and distinct. The ZEP-RE Board meets a minimum of three times a year and provides overall strategic direction, reviews performance and takes material policy decisions. Responsibility for implementing strategy and day to day operations is delegated to the Managing Director.

The Board is accountable to the shareholders of the Company for the operations of the Company.

#### **Board Charter**

The Board of Directors is guided by a Charter that defines its functions, accountabilities and responsibilities. The Charter considers each member's professional competencies and personal qualities to ensure the effectiveness of each Director's contribution and the performance of the Board as a whole consistent with standards of independent judgement, ethics and integrity expected from holders of a Director's office.

Directors are provided with appropriate and timely information by management to enable them maintain full and effective control over strategic, financial, operational and compliance issues.

#### **Board Evaluation**

The Board also has in place an Evaluation Policy that is meant to help review members' performance and assist them in adding value and fulfilling their responsibilities to the organisation and its stakeholders.

#### **Appointment of Board Members**

The appointment of Board members is effected every three years through a formal and transparent election process that involves the entire membership of the Company. Each member is given the opportunity to nominate candidates for the positions of Director and Alternate Director. Equally all members participate in the voting and appointment of Directors into office. Mid-term replacements, where necessary, are done through a transparent by-election process.

During the year, a by-election was held and Mr. Tushar Shah of Mayfair Insurance Company, Kenya was elected as an Alternate Director to Honourable Peter Kenneth. Mr. Tushar Shah replaced Mr. David S. Nalo formerly of the Ministry of Trade, Kenya.

#### **Access to Company Resources**

All Directors have access to management and to such information as is needed to carry out their duties and responsibilities fully and effectively. All Directors are kept informed on latest developments regarding the Company's business and industry wide issues through a formal communication process.

#### **Board Committees**

The Company has established three Committees (Audit, Investments and Human Resource) to assist it in discharging its responsibilities. All Board Committees have formally delegated terms of reference and report to the Board as required. All Directors are remunerated for their service to the Committees.

• The Board Audit Committee

The Board Audit Committee comprises Ms. Irene M. Muyenga (Chairperson), Mrs. Margaret T. Ikongo and Mr. Aden Saleh Omar. The Committee meets at least twice a year and as part of its oversight role consults with senior Management on issues concerning internal controls and general

11

## **Report of the Chairman of the Board of Directors**

financial matters. The Internal Auditor (outsourced) and External Auditors also attend these meetings to ensure that the Committees' independence is not impaired and both have unrestricted access to the Committee and its Chairperson.

The Audit Committee serves in an advisory capacity to the Board and assists in ensuring that Company assets are safeguarded, an adequate control framework is in place and material corporate risks are being managed.

- The Board Investments Committee comprises Dr. Michael Gondwe (Chairman), Mrs. Eunice Mbogo and Mr. William Erio. The Committee meets at least twice a year and as part of its oversight role consults with senior Management on all policy issues pertaining to investments.
- The Human Resource Committee comprises Ms. Amna Ali Mohammed (Chairperson), Mrs. Marie Claire Mukasine and Mr. Venancio Mondlane. The Committee meets at least once a year and as part of its oversight role monitors, evaluates and advises the Board on all human resource issues.

#### **Directors' Emoluments**

The emoluments paid to Directors for services rendered in 2008 are disclosed in Note 32 to the Financial Statements.

#### **Internal Control Framework**

The Board acknowledges its overall responsibility for the Company's internal control system and for reviewing its effectiveness. Management is accountable to the Board for monitoring this system and for providing assurance that it has done so. Management has implemented an internal control framework meant to ensure that the Company's operations run smoothly and efficiently. The framework is also meant to ensure that the business, operational, financial and compliance risks are managed effectively so that the Company's objectives can be met.

#### **Corporate Social Responsibility**

Responsible corporate citizenship is one of the core values of ZEP-RE and the Company has continuously committed itself to this principle. During the year, ZEP-RE contributed to the Kenya Red Cross Society post election violence alleviation programme in Kenya. The Company also supported education for less privileged children by helping renovate the computer laboratory of Farasi Lane Primary School, a school based in the outskirts of Nairobi. The Farasi Lane project is a Corporate Social Responsibility initiative the Company adopted in 2005 and has since then been making annual contributions to it.

#### AM Best Credit Rating

During the year the Company undertook a rating exercise with the internationally recognized AM Best rating agency and secured a Financial Credit Rating of "B" and an Issuer Credit Rating of "bb+". The good rating is attributed to a number of factors including; ZEP-RE's good underwriting policies and claims management which saw the Company maintain a loss ratio that was below regional industry average, an adequate reinsurance programme, good risk adjusted capital, a well implemented risk management programme and the Company's plans for future growth and expansion.

#### BY ORDER OF THE BOARD OF DIRECTORS

Peter Kenneth, MP Chairman.

27th March 2009

12ZEP-RE (PTA REINSURANCE COMPANY)<br/>FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

### **Report of the Directors**

The Board of Directors hereby submit their report together with the audited financial statements for the year ended 31 December 2008 which disclose the state of affairs of the Company. The report is made in accordance with the provisions of Article 31 of the Agreement Establishing ZEP-RE (PTA Reinsurance Company).

#### **PRINCIPAL ACTIVITIES**

The Company underwrites all classes of life and non-life reinsurance risks as defined by Article 31 of the Agreement Establishing ZEP-RE (PTA Reinsurance Company). The business is divided into the following classes:

- Fire and accident (including engineering and motor)
- Marine and aviation
- Life

#### **RESULTS FOR THE YEAR**

The net profit for the year is US\$ 1.91 million compared to US\$ 5.26 million in 2007. The financial highlights for the period are as shown below:

	2008	2007

During the year, the Company's investments increased by 30.29 % from US\$ 41.36 million in 2007 to US\$ 53.88 million in 2008.

Investment income increased by 22.40% from US\$ 3.23 million in 2007 to US\$ 3.95 million in 2008. Interest rates of some of the major currencies dropped in the first half of the year and marginally rose during the second half of the year.

#### DIRECTORS

The current Directors of the Company are as shown on pages 3, 4 and 5.

#### Appointed during the year

Mr. Tushar Shah (Kenya) was appointed on 14 July 2008.

#### Continuing during the year

Hon. Peter Kenneth (Kenya), Mrs. Eunice Mbogo (Kenya), Mrs. Margaret T. Ikongo (Tanzania), Mr. William Erio (Tanzania), Ms. Irene M Muyenga (Zambia), Ms Amna A Mohammed (Sudan), Mrs. Marie Claire Mukasine (Rwanda), Dr. Michael Gondwe (PTA Bank), Mr. Aden Saleh Omar (Djibouti) and Mr. Venancio Mondlane (Mozambique); all appointed on 16th July 2007, continued in service during the year.

#### Retired during the year

Mr David Nalo (Kenya) retired in 2008.

#### AUDITORS

The Company's auditors Deloitte and Touche, have expressed willingness to continue in office for the next financial year. Accordingly a resolution will be proposed to reappoint them as auditors for the financial year 2009.

By order of the Board

merg **SECRETARY** 

27th March 2009

### **Statement of Directors' Responsibilities**

Article 31 of the Agreement establishing ZEP–RE (PTA Reinsurance Company) requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company as at the end of the financial year and of the operating results of the Company for that year. It also requires the directors to ensure that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company. They are also responsible for safeguarding the assets of the Company.

The directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The directors accept responsibility for the annual financial statements, which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates, in conformity with International Financial Reporting Standards and as per the Agreement establishing ZEP–RE (PTA Reinsurance Company). The directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the Company and of its operating results. The directors further accept responsibility for the maintenance of accounting records which may be relied upon in the preparation of financial statements, as well as adequate systems of internal financial control.

Nothing has come to the attention of the directors to indicate that the Company will not remain a going concern for at least the next twelve months from the date of this statement.

Peter Kenneth, MP Chairman

27th March 2009

Rajni Varia Managing Director 16ZEP-RE (PTA REINSURANCE COMPANY)<br/>FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

### **Independent Auditors' Report**

We have audited the financial statements of ZEP-RE (PTA Reinsurance Company) set out on pages 17 to 50 which comprise the balance sheet as at 31 December 2008, the income statement, statement of changes in equity and cash flow statement for the year then ended, together with the summary of significant accounting policies and other explanatory notes. We have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

#### Respective responsibilities of directors and auditors

The Company's directors are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and Article 31 of the Agreement establishing ZEP-RE (PTA Reinsurance Company). This responsibility includes: designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances. Our responsibility is to express an opinion on these financial statements based on our audit.

#### Basis of opinion

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment and include an assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we considered internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by directors, as well as evaluating the overall presentation of the financial statements.

We believe that our audit provides a reasonable basis for our opinion.

#### Opinion

In our opinion, the Financial Statements give a true and fair view of the state of affairs of the Company at 31 December 2008 and of its profit and cash flows for the year then ended in accordance with International Financial Reporting Standards and comply with Article 31 of the Agreement Establishing ZEP–RE (PTA Reinsurance Company).

Cash and cash equivalents at the end of the year	31	37,210,570	29,339,157

The principal accounting policies adopted in the preparation of these financial statements are set out below:

#### (a) Basis of preparation

The financial statements are prepared in accordance and comply with International Financial Reporting Standards. The financial statements are presented in United States Dollars (US\$), and prepared under the historical cost convention, as modified by the revaluation of certain property and equipment, and the carrying of investment property and available-for-sale investments at fair value and impaired assets at their recoverable amounts.

The preparation of financial statements in conformity with International Financial Reporting Standards requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on the directors' best knowledge of current events and actions, actual results ultimately may differ from those estimates. The estimates and assumptions are reviewed from time to time to reflect current realities.

#### (b) Statement of compliance with International Financial Reporting Standards (IFRS)

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS).

Adoption of new and revised International Financial Reporting Standards (IFRSs)

Standards and interpretations effective in the current period

The following new interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) and revised standard issued by International Accounting Standards Board (IASB) are effective for the current period:

- IFRIC 12, Service Concession Arrangements (effective 1 January 2008);
- IFRIC 13, Customer Loyalty Programmes (effective 1 July 2008);
- IFRIC 14, IAS 19 The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their interaction (effective 1 January 2008);
- IFRIC 16, Hedges of a Net Investment in a Foreign Operation (effective 1 October 2008);
- IAS 39, Financial Instruments: Recognition and Measurement: Reclassification of financial assets (effective for accounting periods beginning on or after 1 November 2008);
- IFRS 7 Financial instruments: Disclosures consequential amendments arising from amendments to IAS 39 (effective for accounting periods beginning on or after 1 November 2008).

Adoption of these interpretations and the revised standards has not led to any changes in the Company's accounting policies.

New and revised standards and interpretations in issue not yet effective.

At the date of authorisation of these financial statements, the following revised standards and interpretations were in issue but not yet effective.

- IFRIC 15, Agreements for the construction of Real Estate (effective for accounting periods beginning on or after 1 January 2009)
- IFRIC 17, Distributions of Non-cash Assets to Owners (effective for accounting periods beginning on or after 1 January 2009)
- IFRIC 18, Transfers of Assets from Customers (effective for accounting periods beginning on or after 1 July 2009)
- IFRS 1, First-Time Adoption of International Financial Reporting Standards Amendment relating to cost of an investment on first-time adoption (effective for accounting periods beginning on or after 1 January 2009)
- IFRS 3, Business Combinations Comprehension revision on applying the acquisition method (effective for accounting periods beginning on or after 1 July 2009)
- IFRS 8, Operating Segments (effective for accounting periods beginning on or after 1 January 2009)
- IAS 1, Presentation of Financial Statements (effective for accounting periods beginning on or after 1 January 2009)
- IAS 23 (Revised), Borrowing Costs (effective for accounting periods beginning on or after 1 January 2009)
- IAS 27, Consolidated and Separate Financial Statements: Consequential amendments arising from amendments to IFRS 3 (effective for accounting periods beginning on or after 1 July 2009)
- IAS 28, Investments in Associates: Consequential amendments arising from amendments to IFRS 3 (effective for accounting periods beginning on or after 1 July 2009).
- IAS 31, Interests in Joint Ventures: Consequential amendments arising from amendments to IFRS 3 (effective for accounting periods beginning on or after 1 July 2009).
- IAS 32, Financial Instruments: Presentation: Amendments relating to puttable instruments and obligations arising on liquidation (effective for accounting periods beginning on or after 1 January 2009)
- IAS 39, Financial Instruments: Recognition and Measurement: Amendments for eligible hedged items (effective for accounting periods beginning on or after 1 July 2009)
- "Improvements to IFRSs" was issued in May 2008 and its requirements are effective over a range of dates, with the earliest effective date being for annual periods beginning on or after 1 January 2009. The IASB's annual improvements process deals with non-urgent, minor amendments to the standards.

The directors anticipate that the adoption of these standards and interpretations and amendments to other IFRSs resulting from the International Accounting Standards Board (IASB)'s annual improvements project published in May 2008, when effective, will have no material impact on the financial statement of the Company.

#### (c) Income recognition

Premium and related expenses are accounted for in the underwriting revenue account when advised by the ceding companies.

Gross earned premium comprise gross premium relating to risks assumed in the year after accounting for any movement in gross unearned premium. Unearned premium represent the proportion of the premium written in the year that are attributable to the subsequent accounting period and are estimated at 40% of net premium.

Commissions receivable are recognised to income when advised by the ceding companies.

Investment income is stated net of investment expenses. Interest income is recognised on a time proportion basis that takes into account the effective yield on the asset. Rental income is recognised as income in the period in which it is earned.

#### (d) Claims incurred

Claims incurred comprise claims paid in the year and changes in the provision for outstanding claims. Claims paid represent all payments made during the year, whether arising from events during that or earlier years. Outstanding claims represent the estimated ultimate cost of settling all claims arising from incidents occurring prior to the balance sheet date, but not settled at that date. They are determined from time to time on the basis of the best information available at the time the records for the year are closed, and include provisions for claims incurred but not reported ("IBNR").

#### (e) Retrocession

Retrocession premium payable is recognised in the period in which the related premium income and claims are earned /incurred, respectively.

#### (f) Currency translation

#### i) Functional and presentation currency

The Company's reporting currency is the United States Dollar (US\$)

Monetary assets and liabilities expressed in the various functional currencies of member states are translated into United States Dollars (US\$) using the closing rate method.

#### ii) Transactions and balances

Transactions during the year in currencies other than the US Dollar are translated using exchange rates prevailing at the dates such transactions occur. The resultant gains or losses from such transactions are recognised in the income statement.

Closing balances are translated into the US Dollar at rates ruling at the balance sheet date. The resultant translation gains or losses on short term assets and liabilities are recognised in the income statement.

Translation differences on long term assets and liabilities such as equities classified as availablefor-sale financial assets are included in the fair value reserve in equity.

#### (g) Deferred income

This represents the value of land (valued in 1994) owned by the Company. This land was granted to the Company by the Kenya Government. The amount is amortised over the lease period and is stated net of accumulated write-back to the income statement.

#### (h) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held with banks and other short-term highly liquid investments with original maturities of six months or less.

#### (i) Property and equipment

All property and equipment are initially recorded at cost. Buildings and freehold land are subsequently shown at market value, based on triennial valuations by external independent valuers, less subsequent depreciation and any accumulated impairment losses. All other property and equipment are stated at historical cost less depreciation and any accumulated impairment losses.

Increases in the carrying amount of land and buildings arising from revaluations are credited to a revaluation reserve. Decreases that offset previous increases of the same asset are charged against the revaluation reserve; all other decreases are charged to the income statement.

Any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset.

Freehold land is not depreciated. Depreciation is calculated on other property and equipment on the straight line basis to write down the cost of each asset, or the revalued amount, to its residual value over its estimated useful life as follows:

Buildings	50 years
Motor vehicles	4 years
Office furniture and fittings	8 years
Office equipment	8 years
Computers	3 years

Interests in leasehold land are accounted for as prepayments and are amortised over the term of the lease.

Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amounts.

#### (j) Intangible assets

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives (not exceeding 5 years)

Costs associated with developing or maintaining computer software programmes are recognised as an expense as incurred. Costs that are directly associated with the production of identifiable and unique software products controlled by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognised as intangible assets. These costs are amortised over their estimated useful lives.

#### (k) Investment property

Investment properties comprise land and buildings and parts of buildings held to earn rentals and/or for capital appreciation. They are carried at fair value, determined annually by external independent valuers. Fair value is based on active market prices as adjusted, if necessary, for any difference in the nature, condition or location of the specific asset.

Investment properties are not subject to depreciation. Changes in their carrying amount between balance sheet dates are dealt with through the income statement.

On disposal of an investment property, the difference between the net disposal proceeds and the carrying amount is charged or credited to the income statement.

#### (I) Other investments

The Company classifies its investments into the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity financial assets and available-for-sale financial assets. The classification depends on the purpose for which an investment is acquired. Management determines the classification of its investments at initial recognition and re-evaluates this at every reporting date.

#### i) Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading and those designated at fair value through profit or loss at inception. A financial asset is classified into this category at inception if acquired principally for the purpose of selling in the short term, if it forms part of a portfolio of financial assets in which there is evidence of short term profit-taking, or if so designated by management. The Company had no investments in this category at 31 December 2008 and 31 December 2007.

#### ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market other than those that the Company intends to sell in the short term or that it has designated as at fair value through income or available-for-sale. Loans, receivables arising from reinsurance and retrocession contracts and other receivables for the Company fall under this category.

#### iii) Held-to-maturity financial assets

Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturities – other than those that meet the definition of loans and receivables – that the Company's management has the positive intention and ability to hold to maturity. Government securities have been classified in this category.

#### iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated in this category or not classified in any of the other categories. Investments in quoted and unquoted shares are classified as available for sale.

Purchases and sales of investments are recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value plus, in the case of all financial assets not carried at fair value through profit or loss, transaction costs that are directly attributable to their acquisition. Investments are derecognised when the rights to receive cash flows from the investments have expired or where they have been transferred and the Company has also transferred substantially all risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables and held-to-maturity financial assets are carried at amortised cost using the effective interest method. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are included in the income statement in the period in which they arise. Unrealised gains and losses arising from changes in the fair value of non-monetary securities classified as available-for-sale are recognised in equity. When securities classified as available-for-sale are recognised fair value adjustments are included in the income statement as net realised gains/losses on financial assets.

The fair values of quoted investments are based on current bid prices.

#### (m) Impairment of financial assets

At each balance sheet date, the Company assesses whether there is objective evidence that a financial asset (or group of financial assets) is impaired. If any such evidence exists, the recoverable amount of the asset is estimated and an impairment loss recognised in the income statement whenever the carrying amount of the asset exceeds its recoverable amount.

The impairment loss so recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

#### (n) Employee entitlements

The estimated monetary liability for employees' accrued annual leave entitlements at the balance sheet date is recognised as an expense accrual.

Entitlements to gratuity are recognised when they accrue to qualifying employees. A provision is made for the estimated annual gratuity as a result of services rendered by employees up to the balance sheet date.

#### (o) Retirement benefit obligations

The Company operates a provident fund, which is a defined contribution plan for its employees. Assets of the fund are held in separate trustee administered funds, which are funded from contributions from both the Company and employees.

The Company's obligations to the provident fund are charged to the income statement as they fall due.

#### (p) Dividends

Dividends on ordinary shares are charged to equity in the period in which they are declared.

#### (q) Taxation

In accordance with Article 7 of the Headquarters Agreement between the Government of the Republic of Kenya and ZEP-RE (PTA Reinsurance Company), the Company is exempt from all forms of taxation.

#### (r) Provision for bad & doubtful debts

Provisions are made against receivables when, in the opinion of the directors, recovery is doubtful. The aggregate provisions which are made during the year, less amounts released and recoveries of bad debts previously written off are dealt with in the income statement. Bad debts are written off in part or in whole when the extent of the loss has been confirmed.

#### (s) Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

### Notes to the Financial Statements

#### 1 Establishment

The Company was established by member states of the then Preferential Trade Area for Eastern and Southern Africa (now COMESA) for purposes of:

- a) Fostering the development of the Insurance and Reinsurance industry in the Comesa sub-region,
- b) Promotion of the growth of national, sub-regional and regional underwriting and retention capacities, and
- c) Supporting sub-regional economic development.

The Company is domiciled in Kenya and has regional offices in Sudan and Zambia and a liaison office in Cameroon.

#### 2 Gross premium income

3

4

The premium income of the Company can be analysed between the main classes of business as shown below:

	2008	2007
	US\$	US\$
Fire and accident	33,491,705	28,797,171
Marine and aviation	4,957,210	5,253,077
Life	7,537,585	3,873,316
	45,986,500	37,923,564

#### 19 Share Capital

Members at the 17th Annual General Meeting approved the restructuring of the Company's capital set up as indicated below:

- (i) The general assembly passed a resolution number 7/08 to increase the authorised share capital to US\$ 100,000,000 (2007: US\$ 50,000,000) made up of 100,000,000 shares with par value of US\$ 1 per share (2007: US\$ 1,364 per share).
- (ii) The General Assembly also approved the capitalisation of dividends amounting to US\$ 750,000 based on the voting power position as at 31 December 2007.
- (iii) The Board also approved capitalisation of reserves amounting to US\$ 9,852,399 to be applied towards the issue of bonus shares.

At 31 December 2008 the position was as follows:

(i)	Paid-up capital	2008	2007
		US\$	US\$
	Issued and paid up capital	29,998,013	12,808,863
	Unsubscribed	70,001,987	37,191,137
	Authorised capital	100,000,000	50,000,000
(ii)	Paid-up shares	2008	2007
		No of shares	No of shares
	Shares allotted and subscribed	29,998,013	21,034
	Unsubscribed	70,001,987	15,622
	Shares called	100,000,000	36,656
	Shares un-paid	(70,001,987)	(27,266)
	Subscribed and paid-up shares	29,998,013	9,390

#### 20 Revaluation surplus and fair value reserves

	2008	2007
	US\$	US\$
Revaluation surplus	9,042	11,830
Fair value reserve	(917,639)	(32,278)
	(908,597)	(20,448)
	========	========

Movements in the revaluation and other reserves are shown in the statement of changes in equity on page 19.

#### Fair value reserve

The fair value reserve relates to the cumulative net change in the fair value of available for sale investments and revaluation surplus on office building.

#### 21 Retained earnings

The retained earnings balance represents the amount available for distribution to the shareholders of the Company. The movements for the year are as follows:

	2008	2007
	US\$	US\$
Balance at 1 January	10,602,399	5,846,410
Profit for the year	1,910,269	5,255,989
Dividends capitalised / paid	(750,000)	(500,000)
Capitalisation of reserves	(9,852,399)	- / -
	1,910,269	10,602,399

The General Assembly in their meeting held on 14th July 2008 approved capitalisation of dividends and reserves amounting to US\$ 10,602,399 to be applied towards the issue of bonus shares to existing shareholders.

### 22 Reinsurance contract liabilities

	2008	2007
	US\$	US\$
Short term reinsurance contracts		
- claims reported and claims handling expenses	11,324,000	10,463,397
- claims incurred but not reported	3,171,000	2,066,192
Total gross reinsurance liabilities	14,495,000	12,529,589

#### i) Short term reinsurance contracts

Gross claims reported, claims handling expenses liabilities and the liability for claims incurred but not reported are net of expected recoveries. The expected recoveries at the end of 2008 and 2007, are not material.

Claims incurred comprise claims paid in the year and changes in provision for outstanding claims. Claims paid represent all claims payments made during the year, whether arising from events during that or earlier years. Outstanding claims represent an estimate of the ultimate net cost of settling all claims arising from incidents occurring prior to the balance sheet date but not settled at that date. Provisions for outstanding claims are computed on the basis of the best information available at the time the records for the year are closed, and include provision for claims incurred but not reported (IBNR). The development of reinsurance liabilities provides a measure of the Company's ability to estimate the ultimate value of claims.

#### 23 Unearned premium reserve

The reserve represents the liability for short term business contracts where the Company's obligations are not expired at the year end. The movement in the reserve is as shown below:

		2008			2007	
	Gross	Retrocession	Net	Gross	Retrocession	Net
	US\$	US\$	US\$	US\$	US\$	US\$
At 1 January Increase in the	14,176,370	(3,349,821)	10,826,549	11,934,522	(2,924,668)	9,009,854
period (net)	2,286,283	(287,842)	1,998,441	2,241,848	(425,153)	1,816,695
At 31 December	16,462,653	(3,637,663)	12,824,990	14,176,370	(3,349,821)	10,826,549

### 24 Payables arising from retrocession arrangements

This amount represents the liability for short term retrocession contracts. The movement in the account is shown below:

	2008	2007
	US\$	US\$
At 1 January	5,556,836	5,425,793
Decrease during the year	(1,896,983)	(1,284,326)
Receivables and payables write - back	1,155,859	1,415,369
At 31 December	4,815,712	5,556,836
	=======	=======

### 25 Deferred income

Deferred income relates to the cost of the leasehold land owned by the Company. This land was granted to the Company by the Kenya Government. The amounts are non-refundable and are released to income over the lease term. The movement on the deferred income account during the year is as follows:

		2008	2007
		US\$	US\$
	At 1 January	69,275	70,090
	Amortisation	(815)	(815)
	At 31 December	68,460	69,275
26	Other payables		
	e une pujumer		
	Due to United Insurance co. Itd (under statutory management)	251,677	251,677
	Rent deposits	204,833	209,439
	Other liabilities	(29,599)	148,113
	Leave pay provision	107,943	89,809
	Provision for gratuity	108,134	79,345
	Advance rent	154	1,480
			<u> </u>
		643,142	779,863
	50		- /

#### 27 Dividends

In July 2008, a dividend of US\$ 79.87 per share amounting to US\$ 750,000, relating to the year ended 31 December 2007 was capitalised.

In respect of the current year, the directors propose that a dividend of US\$ 0.016 per share be paid out to shareholders. This dividend is subject to approval by shareholders at the General Assembly scheduled for May 2009 and has not been included as a liability in these financial statements. The total estimated dividend to be paid is US\$ 480,000.

The movement in dividends payable is as follows:	2008	2007
	US\$	US\$
At 1 January	9,020	22,078
Final dividend declared	750,000	500,000
Dividend paid	(7,187)	(513,058)
Dividend capitalised	(750,000)	-
At 31 December	1,833	9,020

40 ZEP-RE (PTA REINSURANCE COMPANY) FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

### Notes to the Financial Statements (continued)

#### 28 Borrowings

This was a loan obtained from PTA Bank for the construction of the Company's head office building and to partly finance the purchase of an investment property. The loan was repayable in quarterly instalments over a period of sixty (60) months with effect from July 2006. This amount was repaid in full during the year 2007 as follows:

	2008	2007
	US\$	US\$
At 1 January	-	2,430,000
Additions during the year	-	-
Repayments	-	(2,430,000)
At 31 December		
	=======	

#### 29 Contingent liabilities

In common with the insurance industry in general, the Company is subject to litigation arising in the normal course of reinsurance business. The directors are of the opinion that any outstanding litigation from this source will not have a material effect on the financial position or profits of the Company.

#### 30 Commitments

Capital commitments

Capital expenditure authorised but not contracted for at the balance sheet date and which is not recognised in the financial statements is as follows:

	2008	2007
	US\$	US\$
Property and equipment	580,750	1,645,900
	(	=======

#### 31 Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents comprise the following:

	2008	2007
	US\$	US\$
Cash and bank balances	172,750	1,193,170
Deposits with financial institutions	34,103,602	20,634,850
Treasury bills	2,934,218	7,511,137
	37,210,570	29,339,157

### 32 Related parties

The Company is owned by governments, private and public institutions of member COMESA states. Most of the private and public institutions comprise Insurance and Reinsurance companies in the COMESA sub-region.

A portion of the Company's underwriting business is transacted with ceding companies that are shareholders of the Company. The transactions carried out with related parties during the year and the balances due from or due to related parties at year end are disclosed below:

i) Transactions with related parties	2008 US\$	2007 US\$
Gross earned premium - Shareholders	6,596,231	5,551,827
Claims Paid - Shareholders	1,434,868	2,222,597
	2008	2007
	US\$	US\$

Gratuity	85,875	67,222
	468,713	477,778
	=======	
iv) Outstanding balances with related parties		
Premium receivable from related parties	805,821	371,504
Staff car and other loans	194,159	270,193
	=======	=======

#### 33 Critical accounting judgements and key sources of estimation uncertainty

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

### The ultimate liability arising from claims payable under reinsurance contracts

The main assumption underlying techniques applied in the estimation of this liability is that a Company's past claims experience can be used to project future claims development and hence ultimate claims costs. As such, these methods extrapolate the development of paid and incurred losses, average costs per claim and claim numbers based on the observed development of earlier years and expected loss ratios. Historical claims development is mainly analysed by event years. Additional qualitative judgment is used to assess the extent to which past trends may not apply in future, (for example to reflect one-off occurrences, changes in external or market factors such as public attitudes to claiming, economic conditions, levels of claims inflation, judicial decisions and legislation, as well as internal factors such as portfolio mix, policy conditions and claims handling procedures) in order to arrive at the estimated ultimate cost of claims that present the likely outcome from the range of possible outcomes, taking account of all the uncertainties involved. A margin for adverse deviation may also be included in the liability valuation.

#### Impairment losses

At each balance sheet date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

#### Useful lives of property and equipment

The Company reviews the estimated useful lives of property and equipment at the end of each annual reporting period.

#### 34 Risk management objectives and policies

The Company's activities expose it to a variety of financial risks, including reinsurance risk, financial risk, credit risk, and the effects of changes in assets values, debt and equity market prices, foreign currency exchange rates and interest rates. The Company's overall risk management programme focuses on the identification and management of risks and seeks to minimise potential adverse effects on its financial performance, by use of underwriting guidelines and capacity limits, retrocession planning, credit policy governing the acceptance of clients, and defined criteria for the approval of intermediaries and retrocessionaires. Investment policies are in place which help manage liquidity, and seek to maximise return within an acceptable level of interest rate risk. The Company manages risks as follows:

#### I) Reinsurance risk

The risk under any one reinsurance contract is the possibility that the insured event occurs and also the uncertainty surrounding the amount of the resulting claim. By the very nature of a reinsurance contract, this risk is not easily predictable.

For a portfolio of reinsurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Company faces under its reinsurance contracts is that the actual claims and benefit payments will exceed the carrying amount of the reinsurance liabilities. This could occur if the frequency or severity of actual claims and benefits are greater than estimated. Insurance events are not easily predictable and the actual number and amount of claims and benefits will vary from year to year from the level established using statistical techniques.

Experience shows that the larger the portfolio of similar reinsurance contracts, the smaller the relative variability about the expected outcome will be. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The Company has developed its reinsurance underwriting strategy to diversify the type of reinsurance risks accepted.

Factors that aggravate reinsurance risk include lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered.

44 ZEP-RE (PTA REINSURANCE COMPANY) FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

# Notes to the Financial Statements (continued)

### 34 Risk management objectives and policies (continued)

Year ended 31 Decemb	er 2008

Total	Net	16,585,250	176,488	165,434	16,927,172	

The concentration by sector or maximum insured loss at the end of the year is broadly consistent with the prior year.

#### II) Financial risk

The Company is exposed to financial risk through its financial assets, financial liabilities (investment contracts and borrowings), reinsurance assets and reinsurance liabilities. In particular the key financial risk is that the proceeds from its financial assets might not be sufficient to fund the obligations arising from its reinsurance and investment contracts. The most important components of this financial risk are interest rate risk, equity price risk, currency risk and credit risk.

These risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements. The risks that the Company primarily faces due to the nature of its investments and liabilities are interest rate risk and equity price risk.

The Company manages these risks within an Asset Liability Management (ALM) framework that has been developed to achieve long-term investment returns in excess of its obligations under reinsurance and investment contracts.

The Company has not changed the processes used to manage its risks from previous periods. The notes below explain how financial risks are managed using the categories utilised in the Company's ALM framework.

#### Short-term reinsurance contracts

The Company engages in short term reinsurance contracts and funds the reinsurance liabilities with a portfolio of equity and debt securities exposed to market risk. During the year, the Company increased the portion of financial assets invested in debt securities to mitigate the impact of the volatility of equity prices experienced in recent years. An analysis of the Company's financial assets and its short term reinsurance liabilities is presented below;

	2008	2007
	US\$	US\$
Financial assets		12
Available-for-sale equity investments	2,092,169	1,023,369
Receivables arising out of reinsurance arrangements	6,061,923	7,523,214
Deposits retained by ceding companies	1,767,078	1,359,445
Government securities held to maturity	8,479,856	10,995,175
Deposits with financial institutions	34,103,602	20,634,850
Cash and bank balances	172,750	1,193,170
Total	52,677,378	42,729,223
Reinsurance liabilities		
Reinsurance contract liabilities	14,495,000	12,529,589
Payables arising from retrocession arrangements	4,815,712	5,556,836
Deposits retained on ceded reinsurance business	291,710	212,193
Total	19,602,422	18,298,618

Short-term reinsurance liabilities are not directly sensitive to the level of market interest rates, as they are undiscounted and contractually non interest bearing.

### Financial risk (continued)

### Short-term reinsurance contracts (continued)

The mean duration of liabilities is calculated using historical claims data to determine the expected settlement pattern for claims arising from the reinsurance contracts in force at the balance sheet date (both incurred claims and future claims arising from the unexpired risks at the balance sheet date). The mean durations in both 2008 and 2007 is less than one year.

The table below shows the contractual timing of cash flows arising from assets and liabilities included in the Company's ALM framework for management of short term reinsurance contracts as of 31 December 2008:

#### 34 Risk management objectives and policies (continued)

#### III) Credit risk

The Company faces an exposure to credit risk which is the risk that a reinsured will be unable to pay premiums in full when due. Impairment charges are recognised for debts considered doubtful at the balance sheet date. Significant changes in the economy, or in the health of a particular class of business that represents a concentration of the Company's portfolio, could result in losses that are different from those provided for at the balance sheet date. Management therefore carefully manages its exposure to credit risk.

Exposure to credit risk is managed through regular analysis of the ability of the existing and potential clients to meet premium obligations and by reviewing signed shares where appropriate, having close relations with cedants and intermediaries to enhance timely settlement of premiums, offsetting of outstanding premiums against claims and avoiding renewal of treaties with cedants who have poor underwriting and credit history.

There is no concentration of credit risk

#### IV) Interest rate risk

Exposure to interest sensitive assets is managed by use of a yield curve in order to ensure that the Company does not hold low yielding investments in a high interest environment.

The Company has an investment committee which sets investment guidelines that seek to reduce exposure to interest rate risks.

The Company's management monitors the sensitivity of reported interest rate movements on a monthly basis by assessing the expected changes in the different portfolios due to a parallel movement of plus 10 percentage points in all yield curves of financial assets and financial liabilities. These particular exposures illustrate the Company's overall exposure to interest rate sensitivities included in the Company's ALM framework and its impact on the Company's profit or loss by business.

Note 18 discloses the weighted average interest rate on principal interest bearing investments.

#### V) Currency risk

The Company operates in a number of countries and is exposed to currency fluctuations in those countries. The Company's policy is to minimise the currency risk by holding assets in the same currency as the underlying liabilities or in major convertible currencies.

#### VI) Liquidity risk

The Company is exposed to calls on its available cash resources from reinsurance claims and settlement of retrocession premiums. The Company ensures that the maturity profile of investments is well managed so that cash is readily available to meet claims as they arise.

The table below provides a contractual maturity analysis of the Company's financial liabilities:

### **Capital management**

The Company maintains an efficient capital structure from a combination of equity shareholders' funds and borrowings, consistent with the Company's risk profile and market requirements of its business.

The Company's objectives in managing its capital are:

- to match the profile of its assets and liabilities, taking account of the risks inherent in the business;
- to maintain financial strength to support new business growth; to satisfy the requirements of its reinsured and rating agencies;
- to retain financial flexibility by maintaining strong liquidity and access to a range of capital markets;
- to allocate capital efficiently to support growth
- to safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to provide an adequate return to shareholders by pricing insurance contracts commensurately with the level of risk.

**50** ZEP-RE (PTA REINSURANCE COMPANY) FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2008

### Notes to the Financial Statements (continued)

#### 34 Risk management objectives and policies (continued)

An important aspect of the Company's overall capital management process is the setting of target risk-adjusted rate of return which is aligned to performance objectives and ensures that the Company is focused on the creation of value for shareholders.

The Company has a number of sources of capital available to it and seeks to optimise its debt to equity structure in order to ensure that it can consistently maximise returns to shareholders. The Company considers not only the traditional sources of capital funding but the alternative sources of capital including retrocession, as appropriate, when assessing its deployment and usage of capital. The Company manages as capital all items that are eligible to be treated as capital.

The constitution of capital managed by the Company is as shown below:

	2008	2007
